"This download is for users who don't have Microsoft PowerPoint®; it allows them to view PowerPoint 95, 97, 2000, and 2002 presentations.

The PowerPoint Viewer 97 allows people who use PowerPoint to share their presentations with people who do not have PowerPoint installed on their computers. When you post presentations on the Internet, you can include the PowerPoint Viewer to expand your online audience to people who might not have PowerPoint, or to those with different versions. You can use this viewer to view files created in both PowerPoint for Windows® and PowerPoint for the Macintosh."

Download

1. Click the **Download** button (above on the right) and save to your desktop
2. Double click **PPView97.exe** on your desktop to start the setup program.
3. Follow the instructions to complete the installation.

Note: The Installation Dialog box does not refer to PowerPoint 2000 or 2002. However, it will open presentations created in these versions of PowerPoint.

Open PowerPoint Presentations

Double-click on the presentation file. The presentation will open automatically.
