The MS Word Viewer 2003 allows those who do not have MS Word on their hard drives to open and view Word documents. This latest version of the MS Word Viewer will also open word documents created in older versions of MS Word (MS Word 97, 2000, 2002, and 2003). Documents cannot be edited in the MS Word Viewer. They can be copied and pasted into other applications.

### *Download*

1. Click the **Download** button (above on the right) and save to your desktop
2. Double click `wdviewer.exe` on your hard disk to start the setup program.
3. Follow the instructions to complete the installation.

### *Opening an MS Word file*

1. In Word Viewer 2003, go to File > Open
2. In "Look In" list, locate the file you want to open
3. Select the desired file and click "Open"
